

Hello,

I wanted to reach out to you and update you on my college endeavors. Deciding what college has honestly been one of the most difficult decisions I have ever made. First of all, I am the poster child for Academic Solutions because without your help and the people at Academic Solutions, I truly believe I would not have had so many opportunities!!

I was accepted Early Action in December to UGA (yes, without a single AP class!)

I was also accepted to Clemson, Kentucky, North Georgia College and State, Kennesaw, Berry, Xavier, Mercer and Georgia College and State University. Georgia College and State University offers a Nursing Residential Learning Community whereby you are accepted as a Senior in High School into the Nursing Program. They have over 150 applicants, they choose 50 to interview and 14 for the program. I am one of the 14!!! So, I will be going to GCSU into the Nursing RLC this fall and I feel truly blessed to be given this opportunity.

Thank you and all the Academic Solutions people for their tireless efforts over all those weeks. You guys enabled me to succeed!

Sincerely,

Megan Simons
