Academic Solutions
4220 Shallowford Road
Marietta GA 30062
Jennifer Hoyer, MA - Owner/Director

Dear Jennifer,

Our family has been utilizing the services of your tutoring company for several years, after being recommended by a very satisfied friend. Throughout this time, our children have each attended as needed, and we have found that Academic Solutions is family friendly, provides excellent advice, and follows through with goals that are set. We recently had some great news, and I really want to say thank you to everyone at Academic Solutions.

As you know, our oldest son recently completed his college applications, and while we are awaiting many letters, we do want to share that he was accepted into Auburn University, with a Heritage Scholarship of \$40,000 or \$10,000 per year. When our son began his ACT/SAT tutoring with Academic Solutions, the goal was to increase his ACT scores to strengthen his college application. Once he reached that goal, he would continue tutoring for the purpose of earning an even higher score for scholarship money. That extra tutoring really paid off! He was able to reach the second goal, received a 32 on his ACT composite, and earned the Scholarship funds at Auburn!

We view the tutoring as an excellent investment. I see colleges are ranked on their "return on investment" - based upon salaries earned upon graduation, and number of years that it takes to pay off education. In the case of having our son tutored at Academic Solutions, we can certainly say that we received a great ROI.

As a result of earning the higher composite score, this opened up the opportunity for him to be a viable applicant at other colleges as well. Although we do not know where he will be accepted, we view the experience as a positive either way. Auburn is great school, but it is always nice to have choices.

Jennifer, you have always taken the time to discuss my children's academic potentials with such sincere and genuine interest for each one of them. Don has been patient with the kid's sport schedules, school vacations, and my emails. I really just want to let you know that we do appreciate all that you and your staff have done to enrich our children's futures.

Sincerely,

Jane Devereaux
